

Delivering Manufacturing Excellence

ROCKMAN
ADVANCED COMPOSITES

About Us

Rockman Advanced Composites is India's premier manufacturer of world-class, cost-effective Advanced Composite parts with extensive technical experience and capabilities. We offer a seamless one-stop service for your composite needs. We have expanded our presence in the painting and coating of composite parts through the strategic acquisition of Project 12 Ltd, UK

- Composite engineering using CAD & FEA Analysis
- Manufacturing of composite parts & moulds
- In house machining of tooling, jigs & components
- Integrated quality department
- State-of-the-art painting and coating facility

COMPOSITES MANUFACTURING CAPABILITIES

- Manufacture using a range of pre-preg materials including Epoxy and Phenolic resin systems
- Sandwich construction using PMI, PVC, PET, Balsa, Honeycomb (Nomex & Aluminium) and Cork
- Full Trim, Adhesive Bonding and Assembly
- Utilise a wide range of fibres such as Carbon, Aramid, Glass, Zylon, Dyneema, Innegra across a variety of fabric styles

ENGINEERING, CAD, FEA

We work closely with our customers, from the initial design concept, through product development, including material selection, prototyping, testing and taking the product to mass production. We have CATIA V5 and SolidWorks design stations available for use. We can also build to print.

TOOLING, JIG & COMPONENT MACHINING

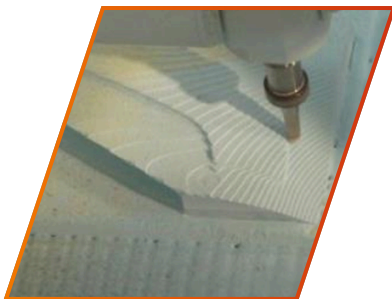

We have extensive in-house capability to machine Tooling & components across a range of materials.

Industries Served

- Automotive
- Motorsports
- Aerospace

- Space Tech
- Defence
- Renewable Energy

- Industrial Products
- Sporting Goods
- Railways

3,4,5-Axis CNC

Prepreg Kit Cutting

Laminating Shop

Autoclaves

Bonding & Assembly

Robotic Trimming

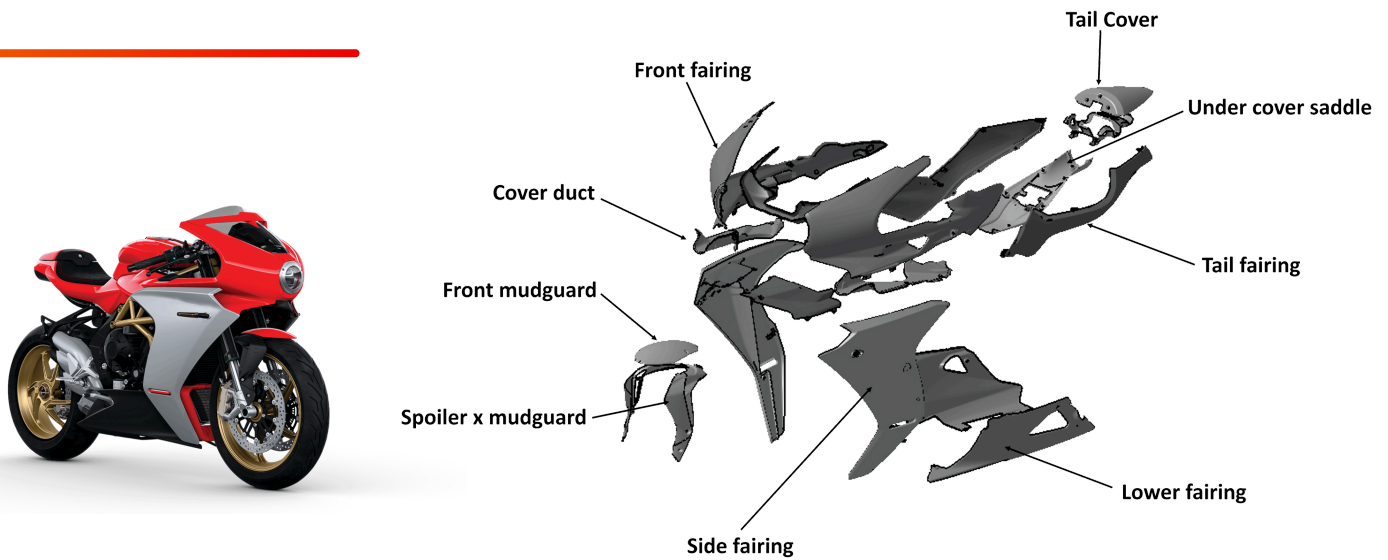

Painting & Coating

7- Axis laser Scanning
